

# militex

*Innovative cleaners, your identity.*

Since 1948

Cleaning & Disinfection

Marriage for Life!

**militeX**

- Militex is a developer and manufacturer of cleaning agents
- Founded in 1948
- Own production, research and development department
- From product development to ready-made end product
- Sustainability and safety are in the DNA of the entire organization
- Militex is a family business

# Hygiene

- Proper cleaning is not only important to ensure that a cleaned object looks nice to the eye
- The term hygiene comes from Hygieia, the Greek goddess of health

# Cleaning and disinfecting

- Cleaning
  - The physical removal of visible dirt
- Disinfecting
  - The amount of micro-organisms is reduced to an acceptable level at which the risk of contamination is very low
- Our advice

# Circle of Sinner

According to the Circle of Sinner 4 factors play a role in cleaning:

Chemistry, movement (mechanical force), time and temperature. These four factors are ideally balanced.

Safety for surface people and the environment

Our products have to meet high standards.

**mitex**

# Microbiological Cleaning

Militex microbiological products:

- Cleaning with renewable resources
- No hazard symbols on the labels
- Biodegradable according to EU standard
- Cleaning with the power of nature

# Different market segments

Every market needs its own approach:

- Automotive
- Leisure
- Healthcare
- Food
- Institutional
- Working from home

**mitetex**

# Color coding in cleaning

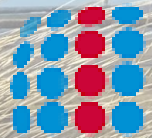

By using the correct color coding, cross-contamination is prevented, among other things.

Development of cleaners for functional surfaces:  
Autoprotect
